

My family and I are residents living nearby the 1420 . Our children attended the 1420 when it was an elementary school. The transformation to residential usage was certainly welcome. Notwithstanding the above the usage of the chapel for commercial reasons such as a venue hall and the creation of a 520 sq meter restaurant will bring unnecessary and unwanted traffic to our neighbourhood. We chose to live in upper Outremont to name a few such as tranquility, nature and safety . Bringing outsiders to our area for venues of 1000 people plus should be kept away . Normally such venues are in industrial parks where such traffic has no bearing over the weekend. The other usages as the wine cellar and the urban garden I believe should be welcome .Please consider our opinion as one of many in the neighbourhood adjacent to the 1420
