

Dear Sir or Madam,

I am writing to you today to express my opposition to the planned development of L'anse-à-l'orme. As a lifelong resident of Dollard des Ormeaux and an avid birdwatcher, I am aware of how little green space is present on the Island of Montreal and how important every bit of natural land is for plants and animals. By destroying even part of the L'anse-à-l'orme natural area, you will be contributing to the systemic reduction in green space on the island of Montreal and reducing our community's ability to benefit from these areas.

I urge you not to go through with the development.

Lisa Rosenberger
