Stabilization of hillside by MTQ 2015- After

Mission and Vision

The primary MISSION of Sauvons la falaise is to ensure protection the St. Jacques Escarpment Eco-territory, and connection with other existing green spaces including the future Meadowbrook park.

Our VISION includes: protecting the falaise St. Jacques from further incursions; promoting connectivity through bike paths and the green belt between NDG, the Sud Ouest, (via dalle-parc) Lachine, Montreal West and Westmount; and cleaning up the falaise

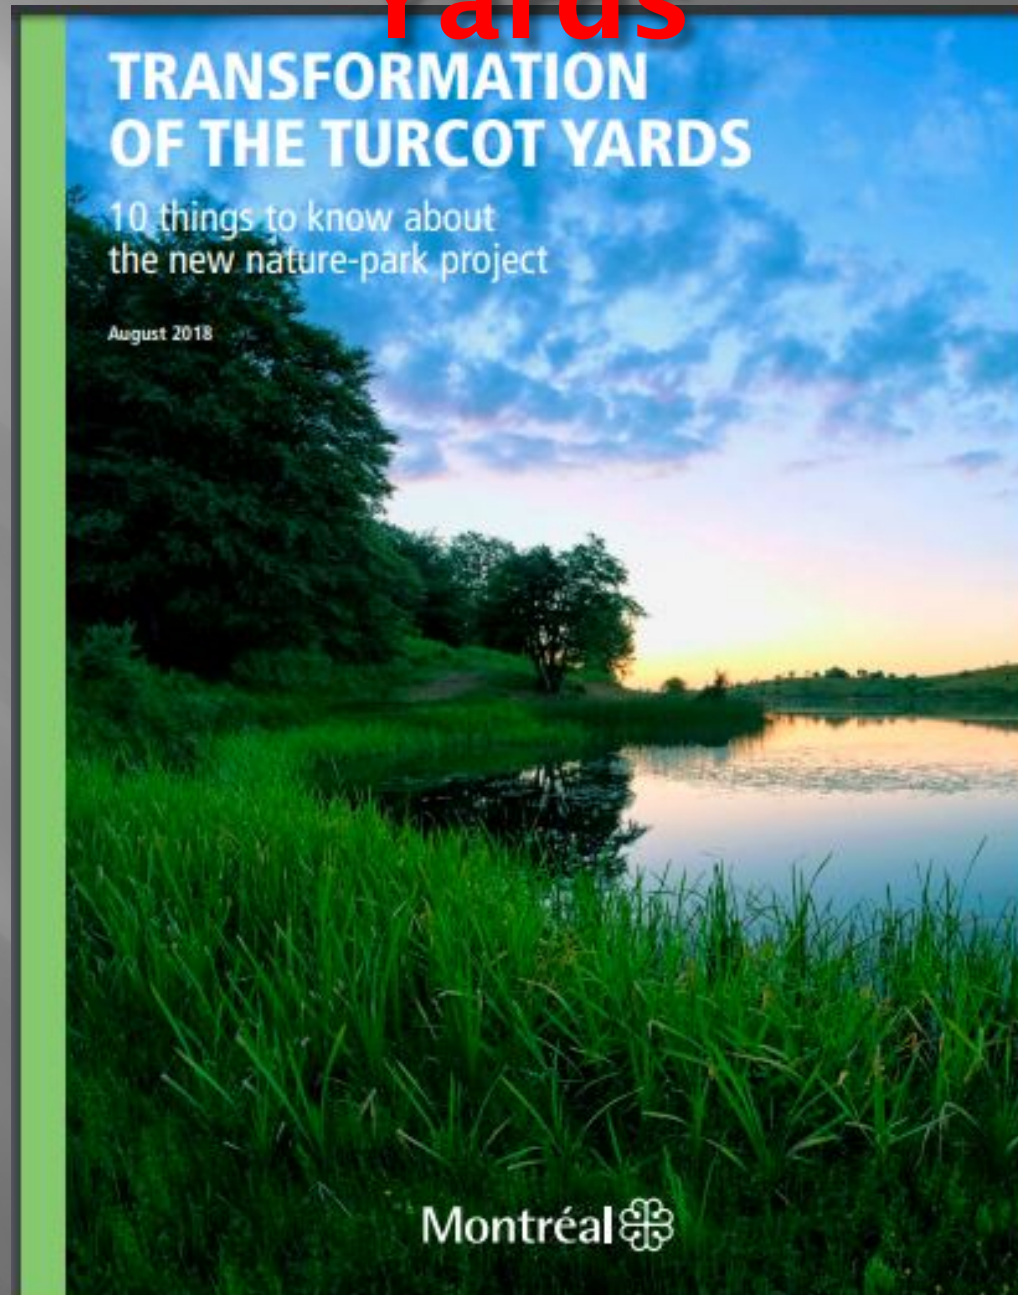

Falaise becomes a grand parc - or does it?

Dalle parc
