**Who are you?** *Please write legibly.*

I grew up in Parc-Extension, since the 1960's. I am now involved with many organisations in the area. I have seen many changes since the 60's. The changes are not for the better in many areas of day-to-day life and need improvement.

**What are your opinions and concerns about the plan for the future of the Marconi-Beaumont district (PDUES)?** *Please write legibly.*

Urban:

- Less traffic problems, i.e. Ogilvy-Hutchison and Jean-Talon.
- Definitely no vehicle crossing on Ogilvy towards De Castelnau, where are the train users to stand. They have and spend enough time comminuting from their home to work to home.
- Safer security for residents.
- More cleaning in the area (streets, sidewalk, leenway).

**What are your suggestions and comments to improve the project?**

*Please write legibly.*

Urban:

- More green spaces in abandoned areas. Flower boxes.

Economic:

- Need for more job opportunities for all.

Social:

- Worried about gentrification of the area.
- Who will be driven away?
- Need for more social housing units in Parc-Extension.
- More facilities for less-mobile residents.
- More senior assistance programs, activity centres for elderly.
- Community groups to be housed in one location where residents will know to go for any type of assistance.
